

Annuals can bring additional colors and textures to the garden. They are useful in perennial beds to add all season color, they are shining in containers and hanging baskets, and flow beautifully from window boxes. Annuals are hard to resist because of the new and unusual varieties that are introduced each year. They also bring the tropics to Michigan with their bright colors and interesting textures.

	GERANIUM -Did you know that Jonker's grows dozens of varieties of Geraniums? Remember when there were just red, pink, and maybe white? We've been growing along with all those new varieties. Bring in that color sample- door shutter - pots - house - and we'll help you select that perfect variety. 'Mrs. Pollack' - with tricolor foliage of red, green, and yellow. Topped with a fiery red flower. Slower growth habit than traditional geraniums, but striking foliage. There will be lots of varieties not listed here.	AVENIDA	MOSAIC RED	BICOLOR
